

Individual Professional Development Plan (IPDP) for Early Childhood Teacher Assistants

Instructions

This document has been developed to help early learning educators create individual professional development plans (IPDPs) for their professional growth and improvement. IPDPs include specific, concrete professional development goals based on your evaluation of your current knowledge and competencies in the domains of Rhode Island's Workforce Knowledge and Competencies frameworks (WKCs) for early learning educators.

For your convenience, we include on page 2 a link to the RIDE website where you can access the WKCs. We also include a link to the Center for Early Learning Professionals website, where beginning in January 2015 you will find resources that can assist you in completing a self-reflection of your professional strengths and needs. Once you have determined your professional development goals, your next step is to develop an action plan for achieving each goal. If you work in an early education center-based program, we recommend you engage your supervisor in this process.

Programs can use this form to develop an IPDP that meets requirements for DHS licensing, BrightStars participation, and RIDE CECE program approval. If your program uses its own form to document IPDPs, this form will need to include the following elements:

- Concrete professional development goals
- A description of the process used to determine those goals
- The specific domains and sub-headings of the WKCs related to each goal
- Concrete action steps for achieving each goal
- Checkpoints to assess and document the progress made toward achieving each goal

To complete your IPDP, fill in the information on page 2. Then, use the attached goal sheets to list your goals and your plan for achieving them. Use one goal sheet for each goal in your IPDP. You can copy and paste in additional sheets for additional goals, as needed. When you are finished, save and store a copy of your IPDP in a safe place so you can retrieve it to track your progress and revise your goals, if necessary.

This document can be completed electronically, by typing directly into the form and then saving it to your computer. We recommend that each time you update this IPDP, you save it as a new document with a new date. If you prefer, you can print this form and fill it out by hand. Be sure to print additional goal sheets for each additional professional development goal.

Individual Professional Development Plan (IPDP) for Early Childhood Teacher Assistants
